Kataklysm

Through the gates of hell
And into the legions of darkness
They come to breed
They come to kill1999 6661
Towards the millenium
The end is comingThey land they land
Freedom denied1999 6661
Towards the millenium
The end is comingThe sky is falling
Cities burning
No one will breath again
There's nothing left to see
But the falling rainThe resistance is failing
Eyes are bleeding
No one can kill this painI can see the fear in your eyes
Parasites of a dying worldThere's no coming back
No one will take the blame1999 6661
Towards the millenium
The end is comingThey land
They land
Freedom denied
