

# Five Roads

## The Mantras

Verse:

There's a force of habit  
We were none the wiser for it  
Our humor is tragic  
There's a pun designed  
For each signature lick  
Inspiration is tricky  
Through the van it gets real sticky  
Throwing up cheers  
Wild ideas I can almost buy the aesthetic  
Now that I can see  
There's a little more time for meditation  
Suppose hypocrisy  
How can freedom be given forcefully  
See the light within  
Guiding us deeper than we've ever been  
Overcoming fears  
A veneer

Adding color where there was none  
Chorus:

Don't you know  
It comes and it goes  
Don't you know  
Nothings for sure  
Don't you know  
Combined five roads  
Don't you know  
Verse:  
We've found the magic  
The elusive substance that binds us  
It keeps us ticking  
Drives us closer to our destiny  
The music steers  
Opens up ears  
Now it's time to shine on in harmony  
Now that we can see  
There's a little more time for reflection  
Imagine you and me  
Rocking out for all eternity  
See the light within  
Guiding us deeper than we've ever been

To a place that five roads become oneChorus:

Don't you know  
It comes and it goes  
Don't you know  
Nothings for sure  
Don't you know

Combined five roads  
Don't you knowVerse:

There's always baggage  
In Life it's simply unavoidable  
Together we can push it off  
Into an endless pit  
We were brought here together  
To explore mind and identities  
Snowballing peaks in reach  
Dark chasms fall beneath our feet

Love is what I see  
Transcending we take on a new vibration  
Floating ever higher

We are all climbing to that destination  
To where to human race

Can concentrate  
On what it does best  
Creating peace

And not destroying all we've been blessed withChorus:

Don't you know  
It comes and it goes  
Don't you know  
Nothings for sure  
Don't you know

Combined five roads

Don't you knowLyrics by: Keith Allen and Marcus Horth
