Sick Inside

Digital Summer

If i have only one regret
Its the memory
Of the day we met
And now,
I can see right through,
Your distorted views
I know whats underneath
Its nothing realYou!
Everything you do,
Makes me so sick inside
So sick inside of,
You!
Every part of you,
Makes me so sick inside
So sick inside...So desperately,
I wish that i could erase
These images inside my head of your face
You've done,
Nothing but abuse everyone you ever knew
I swear to god that i will never be likeYou!
Everything you do,
Makes me so sick inside
So sick inside of,
You!
Every part of you,
Makes me so sick inside
So sick inside
Of you!I wish i never met you
I just wish i could forget
You!
I just,
Wish that i could
Forget you!
I'm just so sick of-You!
Everything you do,
Makes me so sick inside
So sick inside of,
You!
Every part of you,

Makes me so sick inside
So sick inside
You!
Everything about you!
Makes me so sick inside
So sick inside
Sick inside
So sick of you!
