You

Shaznay Lewis

All alone, without you here
How long have I gone, feels like time stands still
I keep counting the days just to try n' find a way to come back home
How long must I stay 'cause I'm missing you babe, it feels so longEvery love song
Every bright smile reminds me of you
Everywhere I go
Every blue sky reminds me of youI'll call, tell you how I feel
You tell me, 'Be strong', that you love me still
I keep counting the days just to try n' find a way to come back home
How long must I stay 'cause I'm missing you babe, it feels so longEvery love song
Every bright smile reminds me of you
Everywhere I go
Every blue sky reminds me of youOoh
Reminds me of you
Ooh
Reminds me of you
Without you, when I'm without youEvery love song
Every bright smile reminds me of you
Everywhere I go
Every blue sky reminds me of youEvery love song
Every bright smile reminds me of you
Everywhere I go
Every blue sky reminds me of you
