

Goodbye (Dermot Bateman Ambient Remix)

Apparat

Let's go into bed Please put me to bed
And turn down the light Fold out your hands
Give me a sign
Hold down your lies
Lay down next to me
Don't listen when I scream
Bury your thoughts (doubts)
And fall asleep
Find out
I was just a bad dream Let the bed sheet
Soak up my tears
And watch the only way out disappear
Don't tell me why
Kiss me goodbye For Neither ever, nor never
Goodbye
Neither ever, nor never
Goodbye
Neither ever, nor never
Goodbye
Goodbye
