

You Don't Love Me No More

Natalie

I still wanna be with you, 'cuz I promised to
But I feel somethings goin' on, goin' on with you
So tell me do you feel the same, 'cuz I can see you, you don't
(You dont love me no more)I remember when you told me after we hooked up
You would never change, now I notice when you hold me
After we make love, you won't feel the same
Now I know what my girl was telling me must be true, you, you dont
(You dont love me no more)I cant believe what I feel is coming from the one I love
I wonder if we should take a chance of splitting up or slowing down
(Slow it down, yeah, yeah)
Maybe we should slow it down, baby
(I can't take it no more)I still wanna be with you, 'cuz I promised to
But I feel somethings goin' on, goin' on with you
So tell me do you feel the same, 'cuz I can see you, you don't
(You dont love me no more)Why dont you love me now?
Yeah, come onIm not one of your friends that youve been hanging with
Where is all the respect, you got me questioning
Is it an ex-girlfriend that takes you way back?
Then let me know if Im the problem for these differences, yeahIm back at it again, Im trying everything
And anything to keep you my man
I give it to you right, keep you good
Make sure you're fed, when you're lying in bedYou're the one thats turning your head, you dont wanna
Hold hands and its killing me, looking you in your eyes
Asking you if you're feeling me, you say yes, what I get is a no
I should give this a rest, but I cant let you go, no I cant let you goI still wanna be with you, 'cuz I promised to
But I feel somethings goin' on, goin' on with you
So tell me do you feel the same, 'cuz I can see you, you don't
(You dont love me no more)Yeah, why don't you love me, me?
Boy come on, come and stay with me
Why dont you love me?
(Tell me, why don't you love me?)I still wanna be with you, 'cuz I promised to
But I feel somethings goin' on, goin' on with you
So tell me do you feel the same, 'cuz I can see you, you don't
(You dont love me no more)
