

Three Letter Word

Jamie Foxx

Yo, you sleep
Now I just um, I think I want some more
Yeah, I know we just got through
But it's, it's just so good, I just can't help it though
It's something about your body
Now it ain't all I think about
Well to be honest, oh
I'm startin' to believe, something's wrong with me
'Cause everyday, every night, every hour, every minute
I'm thinkin' 'bout it
I can be at my job, in my car, up in church
And when I try to pray it off, it won't work
It seems that I can't get enough of
Sex, all the time
Sex, on my mind
Sex, everywhere I go
Sex, I'm tryna let you know
Sex, it's stronger than any drug, even love
S E X, oh
Sex, can make you crazy
Sex, can make a baby
Sex, all night long
Sex, it's the perfect song
Sex, stronger than any drug, even love
S E X, oh
It's getting to the point where I
I watch it on TV when I buy DVDs
Thirty-nine ninety-nine for the new releases
I ain't proud of it 'cause it's getting in the way of love for me
And I can't help it, can't shake it
You know what, sometimes I hear it calling me
Sex, all the time
Sex, on my mind
Sex, everywhere I go
Sex, I'm tryna let you know
Sex, it's stronger than any drug, even love
S E X, oh
Sex, can make you crazy
Sex, can make a baby

Sex, all night long
Sex, it's the perfect song
Sex, stronger than any drug, even love
S E X, oh
Some call it bad, some call it good
Some do it bourgeois, some do it hood
I do it hood, can I say that one more time, girl I do it hood, oh
Some like it slow, some like it fast
It don't mater the tempo long as it lasts
I make it last, can I say that one more time, girl I make it last, oh
Sex, all the time
Sex, on my mind
Sex, everywhere I go
Sex, I'm tryna let you know
Sex, it's stronger than any drug, even love
S E X, oh
Sex, can drive you crazy
Sex, can make a baby
Sex, all night long
Sex, it's the perfect song
Sex, stronger than any drug, even love
S E X, oh
All the time, on my mind
Everywhere I go I'm tryna let you know
It's callin' me for sure
It's stronger than any drug
Girl, when you pull me, baby
It can make you, make you crazy
Can make a baby, all night long, girl
It's the perfect song
Girl, it's stronger than any drug, even love
Even love, even love, even love, even love
All night long, girl
Oh, S E X, sex
