

Never Be the Same

Built to Spill

Go everywhere you want to go
see everything you want to see
and everyone you want to know...if thats what you want
you got it you got it
if thats what you want...we will never be the same
we will never be the same seen it all you've seen it all
you've seen it all theres nothing else
you know it all you know it all
except you keep it to yourself if thats what you think
he's thought it, he's thought it
if thats what you think...we will never be the same
we will never be the same I know you've got something, everybody wants to know
I know you know something, everybody's got to know
I know you want something, everybody's got to go
I know you need something...and thats the way its gonna be
cause thats the way its always been
and in another century
its gonna be this way again we will never be the same
we will never be the same
we will never be the same
we will never be the same.
