Hidden Treasure

Tommy Coomes

Take a walk down by
Take a walk down by the river
There's a lot that you
There's a lot that you can learn
If you've got a mind that's open
If you've got a heart that yearns
If you listen to
If you listen to the water
You will hear the sound
You will hear the sound of life
There's a million different voices
There is happiness and strife
Message in the deep
From a strange eternal sleep
That is waiting there
That is waiting there for you
Like hidden treasure
If you listen to
If you listen to the water
You will hear the sound
You will hear the sound of life
There's a million different voices
There is happiness and strife
