War On Drugs

Slapshot

We're fighting a war we can't win
But it's a war we can't afford to lose
Corrupt officials play the game
And America's habit is to blame???
???
Motherfuckers don't deserve to live
If they give violence that's what we'll giveCasual user snorting lies
While another innocent person dies
Cheap thrills blood spills
It's a no-win-war and we foot the billBut there's no way to stop the flow
Watch your children's habit grow
