

Invincible

Skillet

I, I'm invincible
I'm indestructible
It's my destiny I, I'm invincible
I'm unshakable
Through the truth in my soul You know you just can't kill a man when he's dead
You know the spirit survives (invincible)
You can't stop the advance of the Kingdom to come
You know the truth is alive (invincible) To be invincible
Is unattainable
Without sacrifice Feel, feel the birth inside
The life that cannot die
Are you invincible? You know you just can't kill a man when he's dead
You know the spirit survives (invincible)
You can't stop the advance of the Kingdom to come
You know the truth is alive (invincible) Invincible
Invincible You know you can't kill a man when he's dead
(You know you can't) You know you can't kill a man when he's dead
(You know you can't, you know you can't, you know you can't) You know you just can't kill a man when he's
dead
You know the spirit survives (invincible)
You can't stop the advance of the Kingdom to come
You know the truth is alive (Invincible) You know you just can't kill a man when he's dead
You know the spirit survives (invincible)
You can't stop the advance of the Kingdom to come
You know the truth is alive (invincible) You know you can't kill a man when he's dead
