

Out Last Night

Kenny Chesney

We went out last night
Like we swore we wouldn't do
Drank to much beer last night
A lot more than we wanted to
There were girls from Argentina and Arkansas
Maine, Alabama, and Panama
All mixed together and having a ball Yeah we went out last night
One thing started leadin' to another
Out last night
Hittin' on everybody and their mother
There were two karaoke girls drunk on a dare
Singing "I Got You Babe" by Sonny and Cher
Yeah life was good everywhere
We went out last night Well you know I'm a music man
I grew up in East Tennessee
But last night I was everything
When I got a few drinks in me
I was a doctor, a lawyer, a senator's son
Brad Pitt's brother and a man on the run
Anything I thought would get the job done Yeah we went out last night
One thing started leadin' to another
Out last night
Hittin' on everybody and their mother
There were people doin' body shots up on the bar
Jimmy in a fist fight out by the car
Everybody was some kind of star
When we went out last night Well the fact that I'm still breathing
Means that I must have survived
And that I'll live to go out with
My friends again tonight Oh we went out last night
One thing started leadin' to another
Out last night
Everybody started lovin' on each other
They were dancin' on the tables, howlin' at the moon
Pairing off together and pretty soon
There was not a soul in sight
When we went out last night
