Perfect Song

Sterling Simms

When you touch my hands
Like my favorite station
When my favorite band
I get so excited
Sometimes over joy (Oh)
When I'm feeling down
I turn to you for comfort
I can listen to you over and overYou remind me of my favorite music
Girl you're like my favorite melody
Every word is together
And it's rhythm is where it's supposed to be
Cause you are, you are the perfect song
You are the perfect songYou are my inspiration
Like a symphony
You catch my attention
So beautifully
I let you play, oh
So you're always there, oh
I never want your love
To ever go away from me
When I'm feeling down
I turn to you for comfort
I can listen to you over and overYou remind me of my favorite music
Girl you are like my favorite melody
Girl every word is together
And it's rhythm is where it's supposed to be
Cause you are, you are the perfect song
You are, you are the perfect song
The perfect song (ooh, mmm)Oh, You remind me of my favorite music
Girl you're like my favorite melody
Every word is together (Is together)
And it's rhythm is where it's supposed to be
Girl cause you are, you are the perfect song
Said you are, the perfect song
You are the perfect song
