

# Perfect Song

[Sterling Simms](#)

When you touch my hands  
Like my favorite station  
When my favorite band  
I get so excited  
Sometimes over joy (Oh)  
When I'm feeling down  
I turn to you for comfort  
I can listen to you over and over You remind me of my favorite music  
Girl you're like my favorite melody  
Every word is together  
And it's rhythm is where it's supposed to be  
Cause you are, you are the perfect song  
You are the perfect song You are my inspiration  
Like a symphony  
You catch my attention  
So beautifully  
I let you play, oh  
So you're always there, oh  
I never want your love  
To ever go away from me  
When I'm feeling down  
I turn to you for comfort  
I can listen to you over and over You remind me of my favorite music  
Girl you are like my favorite melody  
Girl every word is together  
And it's rhythm is where it's supposed to be  
Cause you are, you are the perfect song  
You are, you are the perfect song  
The perfect song (ooh, mmm) Oh, You remind me of my favorite music  
Girl you're like my favorite melody  
Every word is together (Is together)  
And it's rhythm is where it's supposed to be  
Girl cause you are, you are the perfect song  
Said you are, the perfect song  
You are the perfect song
