

Christmas With You

Clint Black

Low in the saddle my mind in a haze
Missing my family and counting the days
This road is a long one and if I'm overdue
I'll be dreaming of Christmas with you CHORUS
I know this Christmas
Every wish won't come true
But I'll be dreaming of Christmas with you I'm counting my blessings, treasures untold
Millions of moments more precious than gold
I can ride on those memories and they'll carry me home
And I won't spend this Christmas alone
REPEAT CHORUS BRIDGE
Somehow we can all get together
Where our love is the gift that we'll find
Celebrating these moments forever
Even if I'm only with you here in my mind REPEAT CHORUS TWICE
No, I won't miss this Christmas
And even if I do
I'll be dreaming of Christmas with you
I'll be spending this Christmas with you
