

Tragic Kind of Love

Saliva

Everything I've done
Everything I've lost
I wouldn't change a thing
It was all for you But could you say the same?
And give me your last breath
will take it all away
will I die for u If you don't open up inside
Then kiss me for the last time Tell me how far would you go
Is it really worth it all?
Besides, I don't feel you anymore
What a tragic kind of love
You can't create the face
Until I'm black and blue
I'm addicted to the pain
It was all for you But would you do the same
And give me your last breath
You keep me pushing away
will I die for you? If you don't open up inside
Then kiss me for the last time Tell me how far would you go
Is it really worth it all?
Besides, I don't feel you anymore
What a tragic kind of love
(love)
(love)
(love)
When this moment passes all
Will you be the there when I'm gone?
Tell me now (tell me) Tell me how far would you go
Is it really worth it all?
Besides, I don't feel you anymore
What a tragic kind of love
(love)
(tragic) What a tragic kind of love
