

Lost in the Maze

Schysma

Now I feel like Iâ€™ve not got it...

So forlorn

So lonely

Sometimes I just desire to... go away

Cohabit with lust of success

Abrade me

Corrode me

Sometimes I can repose the maze

Damning slaves and masters

I follow again the wire in the maze

Goddamn itâ€™s hard to get out

Say your prayer and wait

STROFA 2

No flower from this stem are grows

So barren

So raw

Somehow get out this tricky clew

Reaching Torpor and apathy

So quickly

So slowly

Sometimes I can repose the mazeâ€™..no way

May Now weâ€™ve Lost the way

Below my hopes

Iâ€™ve Prayed

But nobody has heard

Lost in the maze

Clash a dense wall of prospect

Falling in the deepest black

Sense of cruel useless

Lost in the maze

Clash a dense wall of prospect
Try to trudge painfully
Out the maze

May Now weâ€™ve Lost the way
Below my hopes
Iâ€™ve Prayed
But nobodyâ€™s heard

Lost in the maze
Clash a dense wall of prospect
Falling in the deepest blackest
Sense of cruel useless

Lost in the maze
Clash a dense wall of prospect
Try to trudge painfully
Out the maze

May Now weâ€™ve lost the way
