The Asteroids Galaxy Tour

With a heart made of stone I will apart your soul
Turn around, take a step, say goodbye
And you're slowly getting cold from the skin to the bone
Turn around, take a step, say goodbyeWhen you realize your time is up
You'll get down on your knees, begging mercy
With a heart made of stone I will apart your soul
Turn around, take a step, say goodbyeTurn around, take a step, say goodbye
Turn around, take a step, say goodbyeSo long blue sky, ride in to the night, dream on lullabyYo!
She was born a believer, growing up an achiever
One beat from her heart, will last forever and tear him apart
Oh he's gonna cry up, we used to come
Yeah he's gonna dry up, only one.Oh, lo, out of nowhere, she was standing there
She was trying to make him see, reach out
What she did to him she did to set him free
But he was sedated, sedated in ecstacy.Reach out
Reach out
Reach out
