

# Sad Girl (Crawling from Within Compilation)

## Lemonheads

Misdirected girls in town  
Just a-layin' down by a pool  
Check the scene check all 'round  
Be sure an' act a fool You don't even know your name  
You should bow your head in shame  
But you say that it's all right  
You go out night after night You're sad girl  
Ain't it a shame?  
You're sad girl  
Aren't you a pain? Been around for quite some time  
There's other's been around longer still  
Dye your hair get, fucked up, pass out  
You got no reason to be on the pill  
Sad girl, sad girl  
Sad girl, sad girl
