

Of Once and Future Kings

Pavlov's Dog

All the ladies of court gather round
Joinin' in heavenly fare
Gathering promises of future heroes
Showing faith it is all as you go
Red light and green light and men in their armour
And fight for the queen if you dare
It's a long way to go to test out your mettle
Well a long way to go to go down
We go round and round
Go down
Go down Courier says we lost our family
There's 21 left, that's all
We were given no quarter because of thy art
Leaving us nothing at all Tell me what would we do
What would we say
They'll be killing us all in the wild
Taking our homes, killing wives and children
Leaving us nothing at all And I'll write them a letter
I said forgive us all we've done
Please first grant this favour, sir
Forgive us quick, or we'll run
Or we'll run, or we'll run, or we'll run
Or we'll run All of the ladies of court gather round me
And you're joinin' in heavenly fare
You're gathering promises of future heroes
Showing faith in its all, as we go
Oh, red light and green light and men in their armour
And fight for the queen if you dare
It's a long way to go to test out your mettle
Well a long way to go to go down
Go down Oh, you better go down, down, down
You better go down again, my friend
Oh, you better go down, down, down
Oh, down again, my friend
Oh, you better go down, down, down, down, down
Go down again
Oh, you better go down, down, down,
Down, down, down
Woh-oh.
