Only Time

Psychotic Waltz

Well it's only time
When the sun shines let your bullets fly like rain
Let'em fly, let'em fly like rain
Well it's only time
I can't taste the morning
When the rays of the killing sun won't shine
Blue as the wind, blew it all, blew it all the time
I see the sky burning red
Burning inside of you
So let it rain down hard
Let it break on through
I see your world, I see your seas
And I know what's going to be left
When you leave what you leave for me
You're pulling me down
Don't lay down when the sun shines
