What's Victoria's Secret?

Rick Springfield

Tell me her name cause' I really want to see her,
And tell me her game, cause' I need a exit strategy, ooh what a tragedy.
But I know she's not what?s best for me,
and I know she?ll cause me harm.
And i know she'd rather fly away to someone else's arms.
ooh, it's true the world wants a mystery, but I need to know one thing
(chorus)
What's Victoria's secret,
tell me if the she clothes she wears will expose,
all of my weakness.
woman i just can't let go till i know.
Victoria's secret,
whispering a love song in my ear.
Victoria's secret,
will haunt me to death because I really need to know her name
(verse 2)
you show me that face,
is it really what it claims to be.
you show me that brain,
is it really based on fantasy,
ooh it?s barley.
yes she seems to get the best of me,
of what little there is left,

and it seems like she's controlling me like a robot but in a trace.
and its true we don't learn from history, but i got to know one thing
(chorus repeatX1)
(bridge)
where will i find,
peace of mind,
in a photograph of holidays,
that little girl from yesterday.
what was her name,
did i ever really know her.
What?s Victoria's secret,
tell me if the clothes she wears will expose,
all of weakness.
and woman i just can't let go till i know,
Victoria's secret,

whispering a love song in my ear.
Victoria's secret will haunt me to death,
did i ever really know her.
Victoria's secret will haunt me to death,
will you ever really know her.
Victoria?s secret will haunt me to death.
can we ever really know her name.
