

Let's Go

Cartel

Let me reintroduce myself as a man with a cause
I've had a lot of time to think and look at who we are
And I've got nothing left to say but we've gotta carry on
And I've got so much left to do but I'll start with this song

Why do they lie?
Why can't you see?
Get up everybody
Stand up with me
Let's go, everybody
Let's go, tell 'em we're coming
Let's go, everybody
Let's go, stand up with me
Let's go, take the world with me
You've got something on your mind but you get in your way
Don't tell us tomorrow, you better buy change today
All we have is who we are and all we know is pretending
You gotta bank on something real, save the life worth spending

Why do they lie?
Why can't you see?
Get up everybody
Stand up with me
Let's go, everybody
Let's go, tell 'em we're coming
Let's go, everybody
Let's go, stand up with me
Let's go, take the world with me
So if you've got a torch to carry hold it high
Take the world with me
Let it burn, let it burn
Let it light up the sky
Stand up, get up, let's go
Stand up, you've gotta let them know
Stand up, you've gotta make them see
Get up people, stand up with me
Let's go, everybody
Let's go, tell 'em we're coming
Let's go, everybody
Let's go, so I'll sing
Let's go, everybody

Let's go, tell 'em we're coming
Let's go, everybody
Come on everybody, stand up with me
Let's go, let's go
Take the world with me
Let's go, let's go
