

Virtue

Jenny Phillips

Virtue

(Jenny Phillips/Tyler Castleton)

Because I love the Father
I want the minds of men to be lifted when
They look at me
Because I am His daughter
I wanted my devotion to him
To be what they see
I don't need the attention of immodesty

Chorus

I am confident in my divinity
I didn't come to earth to compromise
I came here to hold up my light
No matter what the world may do
I'm a daughter of God
And I'm holding on to virtue

I want to lead a life that
Is full of so much good
It attracts the light to me
So I'm trusting in my Father
To magnify the beauty
He has placed in me
I am confident in my divinity

Chorus

I am confident in my divinity
I didn't come to earth to compromise
I came here to hold up my light
No matter what the world may do
I'm a daughter of God
And I'm holding on to virtue

I didn't come to earth to compromise
I came here to hold up my light
No matter what the world may do
I'm a daughter of God

And I'm holding on to virtue
