Sever

We As Human

Sun down its time to feed it
Your demons come to life
You try but cant defeat them
Its over say goodnight
I see you shiver
Were running out of time
Its now or never
I'm reaching for the knifeAnd I see a new day rising
As we divideSeparate my soul
Watch as you expose
All this violence
Out of control
Cancer in my bones
You wont let me go
So its you I severWake up the moon is rising
You feel the other side
Tonight you face the dying
Theirs nowhere left to hide
The taste so bitter
But it will wash away
I will deliver
The sickness to the graveAnd I see a new day rising
As we divideSeparate my soul
Watch as you expose
All this violence
Out of control
Cancer in my bones
You wont let me go
So its you I severI count the times
Ive been betrayed
My flesh and soul
Are still at warI shed the skin
Under me
I feel the life
Set me freeAnd I see a new day rising
As we divideSeparate my soul
Watch as you expose
All this violence
Out of control

Cancer in my bones
You wont let me go
So its you I sever
