

Arrakis

Brad

i was just wandering after love
??? if i started falling anywhere around here
'cause i swear that i saw in the sky, a comet
a star flying high everywhere
if you know me, know me, know you can show me
yes i know, if you want, move close to the sun
and ohh...
and ohh...
i feel that, too young, i know it's all wrong
we walk through the field without a care in the world
if you know me, know me, know you can show me
yes i know, if you want, move close to the sun
and ohh...
and ohh...
and all we are is all we are
and all we are is all we are
