Futuresound

Thomas Azier

We are the youth who live our lives
In the ashes of the fire
We share our hopes and dreams with the night
Along with all our desires
And when the day is done talking
We lose ourselves in imagination
Dancing shadows on the citywalls
The only thing that we're chasingTrough the dark; You hear the futuresound
Here you are, We are coming around
Our blood is mixed in our veins
We root from different embraces
We are the children of the indigo race
You can read it off our faces
And when the day is done talking
We lose ourselves in imagination
Dancing shadows on the citywalls
The only thing that we're chasing
Trough the dark; You hear the futuresound
Here you are, We are coming aroundTrough the dark; You hear the futuresound calling
Here you are, You hear the futuresound callingYou are the futuresound
