As Must Have

Died Pretty

This roundabout of faces grim
Are hollowed now and chances slim
Some fell towards the you know how
While others dreamt of here and now
Well

Well this is fine 'cause as must have
Some vicious swine says as must have
Why wait any longer for that call
When my loneliness will keep me calm?

From hands that grasp to eyes that see
Come shelter this just jealousy
I've got to tell them here and now
This ain't the earth of we know how
Still

Well this is fine 'cause as must have
Some fish and wine still as must have
Why wait any longer for that call
When my loneliness will keep me calm?

Doo doo do doo, doo doo do doo
Doo doo do doo, doo doo do doo
Doo doo do doo, doo doo do doo
Doo doo do doo, doo doo do doo
Well

Well this is fine 'cause as must have
Some vicious swine says as must have
Why wait any longer for that call
When my loneliness will keep me calm?
It will keep me calm
Yes it will keep me calm
Oh it will keep me calm
Oh it will keep me calm
