Getten' to Know You

Parliament

Getting to know you
Was one of the things that I chose to do
Baby I love you
And the world that surrounds youNow that I know you
As one of the things that makes life real
Baby, I love you
And the world that surrounds youGettin' to know you
Is one of the things I hold so dear
A love like this
I never knew I could feelTo think that I love you
After all of the things that I put you through
Baby, I love you
And the world that surrounds youGetting to feel you
Is one of the things I've grown to feel
And baby, I love you
And the world that surrounds youI said getting to show you
Some of the things you make me see
Baby, I love you
And the world that surrounds youWell, getting to know you, hey baby
Is one of the things I hold so dear
A love like this
I never knew I could feelTo think that I love you
After all of the things I've put you through
