Recovery

Funeral For A Friend

Scared to open up these eyes
To see just what's inside
This tree is dead and cold
This house is not a homeHelp me now I'm dying here alone
This is not a new game
So don't think that you know
Casually I confideAwake and paralyzed
Forever in one word
Forever is the longest time
It's the only cure
I'm not sure I'll surviveThis is not a new game
So don't think that you know
Can you see these blood shot eyes?
Can you see?That my strength is failing
And I can't go on this way
And this hearts not beating
It just doesn't seem the sameAnd my strength is failing
And I can't go on this way
(Can't go on this way)Promise me, promise me
Promise me, you will not ever leave
Promise me
(You will not ever leave)Promise me
(You will not ever leave)
Promise me
(You will not ever leave)
You will not ever leaveAnd my strength is failing
And I can't go on this way
And this hearts not beating
It just doesn't seem the sameIt doesn't seem the same
It just doesn't seem the same
