Make It Shine

Quarterflash

There's a miracle waiting, there's a ticket worth taking
There's a reason to believe your eyes
An ounce of conviction is the only admission
Yeah, it's risky, but it's worth the ride
And all the dreams that you've held inside
Yes, they're waiting to break out, you just have to tryMake it shine, let your heart beat right in time
Make it shine, lay your whole world on the lineFind a clue and unfold it, shake the dust off and hold it
If it tells you something let me know
So much is forgotten, so much worth unlocking
Won't you tell me how to break the code
And never worry 'bout the things you read
It's so easy to tear down, so hard to believeToo may dreamers are fading, shine on, shine on, shineLive -there's a life to live
Give -there's a gift to give
Yes -there's a reason to make it
Shine on and make it true,
Work -make it work for you
Yes -there's a reason to make it shineFind a secret and learn it, find a key there and turn it
Do whatever you do through the night
A skill in your fingers like a memory lingers
You gotta do it till it comes out right
You never know till you take a chance
If you're out on that wire you might as well dance
