

Us vs. Them

Finch

Behind the wheel they disappear
I feel an ocean of belief
There's something moving me
In for the kill, this heart beats still
Rolling over tiny soldier, tell me how you feel
You say we're radiant, it's cold emphatic wrapped in static
Play one more song until we are disconnected, no direction home
Closer now, don't lose your nerve
When it's over they will know just what they deserve
I'll be waiting on the other side
Now we're older, rolling over, tell them how we tried
We don't belong, we're radiant, it's cold emphatic
wrapped in static
Play one more song until we are disconnected no direction home
Now it's raining, it's coming down
Colors changing in your crown
We don't belong, we're radiant
Play one more song until we are disconnected, no direction home
