

Stone

Cyrus

I should have known
From your voice alone
That you were gonna mess me up
Too much pleasure like a sugar rush I should have guessed
From those cherry lips
That you were gonna leave your mark
Never had a kiss that hits so hard And I feel you drifting over me
Yea you got this hold on me
Uuh uh uh
And you, yeah you make it hard to breathe
But it just don't bother me
But it just don't bother me I'm a STONE in your river
Rolling to wherever
I drown just a little
I drown just a little
I'm a STONE in your river
Every night I'm with you
I drown just a little
Deep down in you I should've know watching you dance alone
But I could never get enough
Of your body looking like that, love I could have guessed from your silhouette
That we'll gonna ride real fast
Oh, baby we can make it last And I feel you drifting over me
You got this hold on me
And you, yeah you make it hard to breathe But it just don't bother me
But it just don't bother me I'm a STONE in your river
Rolling to wherever
I drown just a little
I drown just a little
I'm a STONE in your river
Every night I'm with you
I drown just a little
Deep down in you Eh eh ey ey
I drown just a little
Deep down in you
Oh ooh oh
Baby,
Uuh uh uh
I drown just a little

Deep down in youA STONE in your river

Rolling to wherever

I drown just a little

I drown just a little

I'm a STONE in your river

Every night I'm with you

I drown just a little

Deep down in you.
