The story tells it all

Behind the garden wall

There was an ancient fall of man

Now we're born into fate

But not lost in this state

There is a plan from one who understands

### Chorus

As high as the heavens above

There is a deep boundless love

Flowin' from the father

Unlike any other

As far as the east from the west

He forgives & he forgets every sin

Whoever asks of him

Forgiveness

### Vs2

Man's righteousness alone

Can't save him on his own

No one can cast stones - we're all guilty

Only blood of the son

Can reverse what's been done

& make us free... Hey - there's a remedy

### Repeat chorus

Brothers & sisters we must listen

We must forgive to be forgiven

Forget offences & rejoice in redemption

### Repeat chorus 2x

Whoever asks of him

Forgiveness
