# The Heat Is On

## La Bouche

The heat
The heatAnother starry night in September
Another chance for romance
And one more time for me to surrender
To put myself in a tranceThe heat is on
The heat is onWe're gonna make tonight last forever
And leave all our troubles behind
Lets beat the clock, lets do it together
I'll show you what's on my mindThe heat is on
The heat is on
The heat is on
The heat is on
The heat is onAnother starry night in September
Another chance for romance
And one more time for me to surrender
To put myself in a tranceThe heat is on
The heat is on
The heat is on
The heat is on
The heat is onThe heat is on
The heat is on
The heat is on
The heat is on
The heat is onThe heat is on
The heat is on
The heat is on
The heat is on
The heat is on
...
