

# Thick as Thieves

## Widowspeak

We could live like highway robbers, thick as thieves  
Let the law men throw us in a jail cell for weeks,  
But the boys in blue couldn't break up me and you  
Your daddy used to work for the F.B.I.  
Put my name on a poster wanted dead or alive,  
So we ditched our cars, and put on our running shoes  
No they don't, no they don't,  
Want us to be together  
No they don't  
No they don't  
Not at all, (not at all)  
We could live, we could live  
We could live like this forever  
You and I, you and I, on and on  
Always and forever, forever, forever  
Always and forever, forever, forever  
Jumped on a train, destination anywhere,  
As long as I'm with you, girl I don't care  
I'll grow a mustache you cut off your hair  
No they don't, no they don't  
Want us to be together  
No they don't no they don't  
Not at all (not at all)  
We could live, we could live  
We could live like this forever  
  
You and I, you and I, on and on  
Always and forever, forever, forever  
Always and forever, forever, forever  
Because I hear the sirens are coming,  
Pistols drawn get on the ground  
There may be a mountain in between us  
But no ones gonna take us down  
No they don't, no they don't  
Want us to be together  
No they don't, no they don't, not at all (not at all)  
We could live, we could live  
We could live like this forever  
You and I, you and I on and on

Always and forever, forever, forever  
Always and forever, forever, forever

No they don't, no they don't

Want us to be together

No they don't, no they don't, not at all (not at all)

We could live, we could live,

We could live like this forever

You and I, you and I, on and on

Always and forever, forever, forever

Always and forever, forever, forever
