

The Sweet Life (Tropical Version)

[Axero](#)

I am gonna live it up to 101
and eat every food and try every drug I am gonna win and lose till 202
and drink at every bar from here to Timbuktu I am gonna live real free till 303
just gonna do it all like I forgot how to read I am gonna score like a whore till 404
and when I get to the end I'm gonna do it some more No I'm not, no I'm not gonna stop living
Age is just, age is just a state of mind
I know I'm, I know I'm, invincible
Live the sweet life till 505
(x2) I'm gonna live the sweet life till 505
