Never Fall

Cruel Hand

When I wake up in the morning and I'm all alone
I've got my boots and my braces and my hair's all gone
Got to go out into the world
Got to make sure I take care out thereCar pulls up and we're against the wall
We will fight and we will never fall
Heads held high and fists clenched tight
Come any closer gonna show you our might
Cause we will never fallWhen I wake up in the morning and I'm all alone
I've got my boots and my braces and my hair's all gone
Got to go out into the world
Got to make sure I take care out there
