Flyin' Solo

Poco

No, no, please don't go
Take it easy, move it slow
Yeah, yeah, say it ain't so
I got the feelin' you want me no moreAnd you say you've got to run away everyday
You think you'll find your way
But it's okay
'Til you find out you've been flyin' solo, soloNo, no, don't go below
Rise above it, let it flow
Yeah, yeah, there are seeds you must sow
Grab a hold and don't let goTake that key and unlock the door
What's that you see, another corridor
There's much more
'Til you find out you've been flyin' solo, soloHave you ever been dreamin'
'Bout the way it could have been
Then you wake up disbelievin'
It's a sin, oh, but then you're flyin' soloSolo, so much to know
Feel the rhythm head to toe
I know we all must grow
But raise the curtain before the showDo you feel you've been mesmerized
Makin' a deal to free you from your ties?
It's alright
'Til you find out you've been flyin' solo, solo, solo
