

Finders Keepers (Acoustic)

You Me At Six

You've got a nerve
Giving me the cold shoulder
Giving me the twice over, that's not deserved.
We'll talk, again when you're sober
You said I've got cold and our heat has gone

I wanna be your eyes
So you can't see, what you've done
I wanna be your ears
So you can't hear, everything that's been missing

Chorus
Finders keepers
Will you keep me in mind?
I like secrets
Cause they keep me in line
Old habits die hard
But I'm too young to die

I guess it's a mess
That you make your bed
So why are we still laying in it?
And I could barely sleep
I could barely eat
And it's been three whole weeks
Since I heard you speak

So you're sober today
Feeding months of bills to break
Oh I love mistakes
Especially ones you've made

(I bet you're sorry)

Chorus
Finders keepers
Will you keep me in mind
I like secrets
Cause they keep me in line
Old habits die hard

But I'm too young to die

No ..

Finders keepers

The whole thing is a lie

You won't find her

Cause she's too hard to find

So my advice and only run a mile

And have another drink

And then think this one over

You'll dig yourself a grave

Everyday, when you're sober

Do you see, what I mean?

At your best interest your all over me

I could never be what you need

Chorus:

Finders keepers

Will you keep me in mind?

I like secrets

Cause they keep me in line

Old habits die hard

But I'm too young to die

Finders keepers

The whole thing is a lie

You won't find her

Cause she's too hard to find

Take my advice and boy run a mile

And I bet, you guess, me right

(You guess me, yes, you guessed me right)

I bet you guess me right
