Special

Vitamin C

I been trying for so long to get you where I stand
Feel like I been climbing all my life
Everybody told me I'd never ever get this far
I know that I can make it if I try
There's the special things that come your way
Hope and pray no matter what they say
Special things somehow come to you
Come to you, come to you
Special things come to you
There's no sense trying to fight it
When I want something so bad no, it's not as easy as it seems
Simple things are the hardest of the things we do for love
And I won't give up 'cause I'm not just what it means
To have the special things you dream about
Become the special things you're all about
Special things will somehow come to you
And it's a simple thing to just believe
And the special things that you want to see
Special things somehow come to you
Come to you, come to you
Special things come to you
Come to you, come to you
There's the special things that come your way
Hope and pray no matter what they say
Special things will somehow come to you
To have the special things you dream about
Become the special things you're all about
Special things somehow come to you
'Cause the special things that come your way
Hope and pray no matter what they say
Special things will somehow come to you
And it's a simple thing to just believe
And the special things that you want to see
Special things will somehow come to you
Come to you
