

mary (live)

[Sarah Slean](#)

She's looking out and out to a galaxy
A fateful boat trip across a Northern Sea
On a frosty window she writes her name
Oh daughter, this is how she became Mary, go ahead and have your little baby
Mary, toughest of the tough but still a lady Oh I've all the courage I'll ever need
I wax poetic on my enemies
The century is raging, but so are we
No matter what I know we've got a symphony called Mary, go ahead and have your little baby
Mary, toughest of the tough but still a lady Out of dark days, stay up airplane
Take my last name, stay up airplane Go ahead and have your little baby
Mary, toughest of the tough but still a lady
Mary, toughest of the tough
