

# Outside Looking In

Chelsea Williams

Say your prayers and hop under the covers tonight  
Hours will pass before your tired eyes meet the light  
Say your prayers and sit down to the table tonight  
Say your prayers and everything'll be alright

(CHORUS)

Outside looking in  
Nothing comes that easy he said  
Houses turn to sand taken by the sea  
Rivers turn to land  
Still I catch their water in my hands  
Still I catch their water in my hands

Happy birthday may the world lay a gift at your feet  
A record collection or maybe even world peace  
'Cause the US Army is coming to collect you tonight  
Eighteen and able to pick up a gun and fight

(CHORUS)

---
