

# Got You Home

## Luther Vandross

I'm glad that you accepted  
My offer to you when I said  
Excuse me Miss, what's your name  
That was the spark that lit the flame You won't be regrettin' it  
I promise you'll be satisfied  
So relax, 'cause everything's gonna be all right Girl, I'm glad that I got you home  
Tonight, night, night, night  
Finally we are alone  
Tonight, night, night, night I'm gonna turn down the lights  
I'll give you what you like  
Girl, I'm glad that I got you home  
Now that I got you home tonight First let me take your coat off  
And let me show you all around  
And if you need somethin'  
I think you ought to get it now We'll be busy doin' whatever's cool  
And I don't want interruptions  
Between me and you Girl, I'm glad that I got you home, you know  
Finally we are alone  
Tonight, night, night, night I'm gonna turn down the lights  
I'll give you what you like  
Girl I'm glad that I got you home  
Now that I got you home tonight I can't imagine bein' in another place  
Except with you face to face  
I can't imagine bein' in another place  
Except with you face to face 'Cause I've been waitin'  
So long for this moment to come  
And now you're here in my arms Girl, I'm glad that I got you home  
Tonight, night, night, night  
Finally we are alone  
Tonight, night, night, night I'm gonna turn down the lights  
I'll give you what you like  
Girl I'm glad that I got you home  
Glad that I got you home tonight I got you home tonight  
I got you home tonight, girl  
I got you home, my baby  
I got you home all right I got you home my girl  
I got you home now baby  
I got you home all right  
I got you home now Girl, I'm glad that I got you home

Tonight, night, night, night  
Finally we are alone  
Tonight, night, night, night I'm gonna turn down the lights  
I'll give you what you like  
Girl I'm glad that I got you home  
Glad that I got you home tonight
