

Touch in the Dark

Asrai

See the reach of a child in you
From a touch in the dark
Among the shades of blue
From a touch in the darkA hand, a name, a queen in truth
A balanced word in a new song
No sound from this place belongs
Among the shades of blueSee the reach of a child in you
From a touch in the dark
Among the shades of blue
From a touch in the darkAnd through the fields of flow
And meaningless sentence
From a touch in the darkFor all that happened since
In these meaningless waysA hand, a name, a queen in truth
A balanced word in a new song
No sound from this place belongs
Among the shades of blueA touch in the darkA hand, a name, a queen in truth
A balanced word in a new song
No sound from this place belongs
Among the shades of blueA touch in the dark
