Twisterella

Ride

Any minute you will feel
The chemistry
Vibrations in the brain
Can't ever be explainedSlip away and out of sigh
Feel the magnet of a night
The circus lights you see
Is where you have to beIf I've seen it all before
Why's this bus taking me back again?
If I don't need anymore
Why's this bus taking me back again?Feel the weight of letting go
Feel more lightness than you've ever known
You can't see when light's so strong
You can't see when light is goneIf I've seen it all before
Why's this bus taking me back again?
If I don't need anymore
Why's this bus taking me back again?
