

# Hey Baby

**Hollis Brown**

Hey baby, you make me blue, I kinda want to make love to you. Hey baby, shine your light, I kinda want you to  
treat me right. I been goin' down every day and every night, I gotta love  
her, got to keep her satisfied, but oh' now baby queen I  
can't recall your name, I know you told me once but it all  
sounds just the same. Hey baby, you make me blue I kinda want to make sweet love to you.
