Slaying the Prophets Ov Isa

Behemoth

Ascend as empires burn
Conquistadors ov the promised land
Like the sons ov Anak
They shall rise from beyond the dawnRise as victorious trumpets call
Chimera, Geryon and thee oh Sphinx
Accompanied by Mars
Jupiter's rays in fearless eyes unrestrainedAstareth
Bring forth the iron rain
Hekate
Bring forth plagues on an ever failing raceThou shalt restore the splendor ov Sodom
Personification ov Gommorah art thou
Iron-willed marching on ahead
With passion enraged threats torn asunderFill my veins with liquid iron
Armor chest and head with shining gold
That I may shake the fragile earth
May my will forever be unrestrainedAstareth
Bring forth the iron rain
Hekate
Bring forth plagues on an ever failing raceGreat architect, charlatan ov fairy tales
Thou hast failed
Since the hour bastard spawn who was vomited forth
From a gasping wound ov a whoreFather, forgive me not, for I have sinned
Now tremble and fear and mercy have not upon me
Begotten son, I am not adversary ov Thy love
The outcast ov Thy paradise, despisedNemesis
As one we stand
Divide and conquer
And we shall own this fucking earthElu Azimech
Elu Alchameth
Elu Azimech
