

# Slaying the Prophets Ov Isa

## Behemoth

Ascend as empires burn  
Conquistadors ov the promised land  
Like the sons ov Anak  
They shall rise from beyond the dawn Rise as victorious trumpets call  
Chimera, Geryon and thee oh Sphinx  
Accompanied by Mars  
Jupiter's rays in fearless eyes unrestrained Astoreth  
Bring forth the iron rain  
Hekate  
Bring forth plagues on an ever failing race Thou shalt restore the splendor ov Sodom  
Personification ov Gomorrah art thou  
Iron-willed marching on ahead  
With passion enraged threats torn asunder Fill my veins with liquid iron  
Armor chest and head with shining gold  
That I may shake the fragile earth  
May my will forever be unrestrained Astoreth  
Bring forth the iron rain  
Hekate  
Bring forth plagues on an ever failing race Great architect, charlatan ov fairy tales  
Thou hast failed  
Since the hour bastard spawn who was vomited forth  
From a gasping wound ov a whore Father, forgive me not, for I have sinned  
Now tremble and fear and mercy have not upon me  
Begotten son, I am not adversary ov Thy love  
The outcast ov Thy paradise, despised Nemesis  
As one we stand  
Divide and conquer  
And we shall own this fucking earth Elu Azimech  
Elu Alchameth  
Elu Azimech  
Haris-El-Sema
