# Brain

## Banks

But it's all the same
I could have foreseen
That you would act like you are
Oh so cool you seem
Blending with that scene
Wearing what you think is hardI can see you struggling
Boy, don't hurt your brain
Thinking what you're gonna say
'Cause everything's a game
Always trying to calculate
Trying to look smart but not too smart
To threaten anything they sayBut it's all the same
I could have foreseen
That you would act like you are
Oh so cool you seem
Blending with that scene
Wearing what you think is hardI can see you struggling
Boy, don't hurt your brain
Thinking what you're gonna say
'Cause everything's a game
Always trying to calculate
Trying to look smart but not too smart
To threaten everything they say
